Hello
I'm Ibidapo Ayomide V.

I'm a Software Engineer proficient in HTML, CSS, JavaScript, TypeScript, React, and Next.js. Skilled in responsive design with frameworks like TailwindCSS, Bootstrap, and ShadCN UI. Experienced in version control using Git, GitHub, and GitLab. I specialize in API integration with Fetch API and Axios, maintaining high code quality with ESLint and Prettier, and focusing on performance, accessibility, and UI/UX best practices.

Experience

2024 - PRESENT

Bloomin *– Project Manager*   Rwanda

Executed detailed project plans targeting specific milestones using agile methodologies; leveraged tools like Jira for tracking progress on all tasks assigned within two weeks per cycle.

August 1, 2023- November 30, 2024

Beadaut Learning*– React & Nextjs Developer*   Japan

Designed, built, and deployed company website products, including [Bukky AI](#), while collaborating with backend developers to ensure functionality and contributing to scalable

solutions that helped increase company revenue.

September, 2021 - April, 2022

Ajasin Foundation, Nigeria– *Frontend Developer (Contract)*

Designed, built, and deployed responsive web pages using various markup languages, while ensuring optimization for speed. I write a reusable code for future use and collaborated with backend developers to integrate the Paystack payment system. Contributed to scalable solutions that enhanced the website's performance and functionality.

2022 - 2022

Oshodi Foundation, Nigeria– *Web Developer (Freelance)*   Nigeria

Designed and developed responsive web pages using various markup languages, built reusable code for future scalability, optimized for maximum speed, and collaborated with backend developers to integrate the Paystack payment system, contributing to improved website performance, functionality, and overall business growth.

2021 - 2022

Techy, Nigeria– *Frontend Web Developer*   Nigeria

I Collaborated in building a fully responsive WordPress website (techy.com.ng) and ensuring the blog is consistently updated with the latest news and trends in the tech space.

2022

Pneuma writing Service, Nigeria– *Content Creator (Internship)*   Nigeria

I Created content for devotional, emotional, and motivational books, generated, researched, and pitched ideas for social media posts, and wrote and edited content to ensure quality and engagement.

Education

2022- PRESENT

Federal University of Technology, Akure– *Bsc.*

Currently studying Remote Sensing and Geoscience Information Systems at the Federal University of Technology, Akure, Nigeria.
